

NORTH AMERICAN SUPPLIERS

WHO WE ARE

Creative Electronics and Software, Inc. (CES) is a full service design, development, manufacturing, and fulfillment partner. Services range from printed circuit board and harness assemblies through complete system design and assembly. They have domestic production lines in South Elgin, Illinois and Las Vegas, Nevada and are geared toward low to medium volume, high mix projects.

Certifications include: ISO 9001: 2015 Certification, ISO 13485, UL, C1D1, IPC 610, RoHS Compliant

WHAT WE HAVE

CAPABILITIES

- PCB Assembly - turnkey or labor only
- Electromechanical System/Box Assembly
- Cable & Wire Harness Assembly

SERVICES

- Rapid Prototyping
- Text Fixture Development
- Component Life Cycle Planning
- Obsolete Parts Procurement
- Engineering Services
- Schematic Layout
- PCB Layout
- Firmware Development
- Design for Manufacturing Analysis
- IoT Design

MARKETS SERVED

- Gaming
- RFID Supply Chain
- LED - Commercial and Consumer
- Medical
- Wireless Telemetry
- Smart Grid
- Military
- Energy
- Industrial
- IoT
- Rugged Equipment
- Transportation
