

NORTH AMERICAN SUPPLIERS

WHO WE ARE

Tongrun International is a global leader in metal fabrication and assembly. The facility in Bonham, Texas measures 130,000 sq. ft. and focuses on high volume, low mix projects. Tongrun International also has two facilities overseas, in Changshu, China and Rayong, Thailand. These facilities are much larger (2.29 and 3.20 million square feet respectively) and are equipped to handle continuous flow of production, assembly, and full integration. Tongrun Innovation, the product development group of Tongrun International, is based in Raleigh, North Carolina, and has full design, prototyping, and agency approval methods to get your products ready for mass production. Administrative support services and project management activities are performed in the United States as well.

Certifications include:

ISO 9001:2015, ISO 14001, UL and CCC Certifications

WHAT WE CAN DO

Tongrun can do sheet metal fabrication, machining, die-casting, iron casting, extrusions, injection molding, foaming, and integrate PCBAs and cable harnesses. They are fully integrated in a variety of markets such as medical, exercise & rehab, outdoor displays, data storage, beverage dispensing, power distribution, clean energy, telecommunications, and many more.

WHAT WE HAVE

BONHAM, TX, USA

- Lasers & Turrets
- Press Brakes
- Painting, Power Coating, and Finishing
- Fabrication and Machining
- Assembly and Integration
- Warehousing

CHANGSHU, CHINA

- Tool Making and Stamping
- Fabrication and Machining
- Lasers & Turrets
- Press Breaks
- Welding
- Assembly and Integration
- Extrusion & Die-Casting
- Gray Iron & Ductile Casting
- Prototyping and DFM

RAYONG, THAILAND

- Fabrication and Machining
- Lasers & Turrets
- Press Brakes
- Painting, Powder Coatings, Finishing
- Fabrication & Machining
- Assembly and Integration
