WHO WE ARE

For over 30 years, DNA Group has been delivering powerful integrated solutions to global OEMs, brands, and the next generation of market leaders across multiple industries. From simple on/off switches to sophisticated electronics, we are your single source.

Known by the company we keep, we offer value-added project management services for each step of the production process. Through our innovative manufacturing capabilities we can handle all forms of component manufacturing, from design to production. Our engineering team can offer expert advice on any idea you are working on, no matter what stage it is in.

CAPABILITIES

DNA Group offers technical services and logistics support for customer projects at each of our US, Mexico, and Asia-based partner facilities. We coordinate with management and production teams to ensure customer requirements are achieved. We offer competitive pricing while delivering top performance.

WE HAVE THE EXPERIENCE

DNA Group is an integrated solutions provider disciplined in HMI, Connectivity, and Contract Manufacturing. With nearly 30 years of experience, DNA Group delivers powerful integrated solutions to global OEM brands and the next generation of market leaders, while successfully navigating the global marketplace and providing competitively priced components, assemblies, and solutions.

WE HAVE THE RESOURCES

DNA Group places global manufacturing resources at your fingertips. Whether you are an OEM looking for additional component sources, or a supplier needing to expand your customer base into new geographic regions, our global resources and relationships allow us to add value to every aspect of global manufacturing. For OEMs, our engineering resources also enable us to support both product development and the procurement process from start to finish.

WE BRING TRANSPARENCY

DNA Group understands that transparency throughout every step of the procurement process is what reassures customers. We encourage factory visits, quality audits, and direct communication between our partners and customers. This level of transparency is why we have earned the trust of top-tier OEMs around the globe and why customers continually return to DNA Group for all of their specialty component and full assembly needs.
