

WHO WE ARE

Selectronic Assembly specializes in the manufacturing of printed circuit board assemblies, the design and production of LED modules, and box build of solid state lighting. They are located in Monterrey, Mexico, with 60,000 square feet of manufacturing area and an additional 26,000 square feet under construction.

Certifications include: ISO 9001:2015, IPC-A-610, UL Certification

WHAT WE HAVE

Electronic Assembly, Case/Housing Manufacturing, System Integration, and Box Build

SERVICES

- SMT Assembly
 - Solder Paste Printer & Pick & Place Machine)
- Selective Soldering
- Automatic Inspection Equipment
 - SPI & AOI
- Conformal Coating
- ICT and Test Fixture Manufacturing
- End-User Packaging

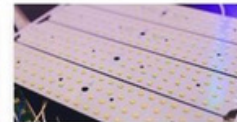

DESIGN

- Case/Housing Design
- PCB Design
- LED Light Fixture Design
- Housing Design
- Lighting Control System Design
- LED Module Design

FABRICATION

- Metal Working
- LED Module by SMT
- Powder Coating

WHAT WE CAN DO

 <p>SMD Component Assembly Service Mount Device</p>	 <p>PTH Pin Through Hole Component Assembly</p>	 <p>ASSEMBLY We assemble any type of prototype</p>	 <p>SUBASSEMBLY Custom Cabinet Manufacturing</p>
 <p>DESIGN We design all types of Electronic Circuits</p>	 <p>CHANGE OF TECHNOLOGY Substitution of components with new technology</p>	 <p>FUNCTIONAL TEST We are specialists in In-Circuit Test and Functional Test</p>	 <p>WAREHOUSE We provide warehouse services for your project</p>
